

RETROSTEM

Fostering STEM through retrogaming consoles

Discover STEM potential with RETROSTEM

WHY RETROSTEM?

- Learn about coding and electronics through engaging, game-based learning
- Design and create your own games on the Retrostem Console!
- Enhance your creativity, motor skills, problem-solving, self-direction, and collaboration

BEYOND THE CONSOLE

Improve your learning and teaching experience with our portfolio of RETROSTEM guides and support documents:

- Teacher's guide
- Five unique training modules
- An engaging Learning Motivational Environment

KEEP IN TOUCH!

Try the RETROSTEM Academy - a dedicated virtual space where you can:

- Use the RETROSTEM Forum to share ideas and experiences
- Get live RETROSTEM help
- Get in touch with us with feedback or questions!

SOMETHING FOR EVERYONE

RETROSTEM has products and lessons designed for:

- Teachers of young people of a variety of ages
- Primary school-aged children
- Lower and upper secondary school-aged children
